## Alison Messom

A molecular geneticist by training, Dr. Alison Messom has nearly 20 years of industry experience, working both within Pharmaceutical Companies and Clinical Research Organisations and is the current Chairman of the Board of Directors of the ICR.

With detailed experience of directing global clinical trials, Dr. Messom has worn many different hats during her career. She has had the opportunity to travel far and wide on business; lived in the UK, France and Switzerland, and gained operational experience in over 50 countries and line management in over 30.

During the course of her career she has line managed at all levels from CTAs through to Directors and VPs. At both i3 Research and ICON she helped build a new department of dedicated line managers for CRAs and also Start Up teams. While within the Pharma environment she line managed teams within Study and Project Management, Clinical Supplies, Translational Medicine, Data Management, Statistics, Informatics and IT – showing that line management skills are transferrable across functional areas.

## Richard Weaver

Richard is the CEO and founder of XenoGesis Ltd, BioCity, Nottingham, UK. XenoGesis is the UK's largest independent contract research organisation specialising in preclinical drug metabolism and pharmacokinetics (DMPK), quantitative bioanalysis, *in vitro* pharmacology, expert interpretation, modelling and simulation and due diligence. XenoGesis has over 160 clients world-wide and has supported 7 compounds entering the clinic with a prediction of human PK and dose.

Richard has 22 years in-depth knowledge of all aspects of DMPK/ADME and Drug Discovery gained at AstraZeneca and XenoGesis.

## Tom Ruane

Over 26 years experience in clinical research operations, with the last 16 years driving innovation in patient engagement and recruitment for clinical trials.

Having enjoyed a variety of roles in the Pharmaceutical industry and CROs as well as the UK National Health Service, I am now responsible for driving new attitudes and innovations in patient engagement and recruitment on PAREXEL run studies.

The way Patient Recruitment has evolved is centered on the ability to focus recruitment efforts directly with the clinic site through combining best-in-class outreach (digital, media, educational, advocacy, electronic medical records etc.) building a comprehensive, patient centric recruitment strategy as key to study delivery. Reducing and even eliminating clinical trial site burden is a key focus in this approach.

## Chris Edwards

Associate Director, Clinical Project Management at Theradex Oncology

# The Small Print

As a matter of policy we do not issue electronic copies of the slides used.

All ICR materials are copyrighted.

All delegates receive a delegate book.

Payment must be received in advance of a training course commencing. The ICR has the right to refuse entry for non-payment. Payment by invoice must be settled within 14 days from the date of invoice.

We understand that occasionally circumstances may change and that you will be unable to attend your chosen course. Notification of cancellation must be made in writing. If you cancel **more than 14 days prior to the event**, we will refund the course less £50 to cover administration costs. If you cancel within 14 days, no refund will be payable, but we will allow you to transfer to another course of your choice.

We will accept a change of delegate at any time without you incurring a penalty. The Institute of Clinical Research reserves the right to cancel any course that is under-subscribed but will give you 7 days notice in writing and will refund your course fees without any liability for any consequential or indirect loss.

At anytime, you may transfer to the same course within 12 months, or to another course of your choice within 6 months; a £25 administration fee will be charged for such transfers.

We may also need to change the venue but will give you 7 days notice in writing of the new location.

Programmes as published are correct, however due to circumstances beyond our control, trainers, speakers and/or the programme may need to be altered occasionally.

The ICR will work with the venue catering team and endeavour to accommodate specific dietary requirements e.g. Vegetarian/Vegan/Gluten Free – however it is not possible to cover all possible requests for dietary preferences.
